

Insurance & Liability

All clients sign a rental agreement and liability waiver, as well as a copy of the safety use and rules for each piece of equipment they are renting.

Outdoor inflatable units require ground stakes in order for it to be safely anchored. Clients are responsible for detecting, and correctly marking, all underground pipes and utility lines before unit is set up. Any damage caused by the installation is the clients responsibility.

While we use due care and diligence when transporting and setting up the units there may be circumstances when minor damage to landscaping may occur due to the weight of the units on the dollies. Krazy Kidz does not accept responsibility for unavoidable damages.

Krazy Kidz is a fully insured and bonded company.

However, the rental agreement and waiver are not insurance - If accepted, the client is responsible for any injuries that occur on their property as well as loss to the rented items and for their return in the same condition in which they were received, except for ordinary wear and tear. However, this company agrees to waive our right to recover from you the amount of loss caused by unintentional damage when proper safety and use rules have been followed and common sense has been demonstrated.
